No mystery has ever compared with that of human life. It has been the leading subject of professional research and study in all ages. But notwithstanding this fact it is not gener-

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injuryd point, because the nerve force in prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the nerve centers at the base of the brain, not from a derangement primarily originating in the center at the base of the brain, not from a derangement primarily originating in the center at the base of the brain, not from a derangement primarily originating in the centers which are the cause of the trouble.

But Praskitz Minks, the calabrated apecialist has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it chief among them being the facts contained in the above statement, and that the ordinary mathods of treatment are wrong. All beadache, dissipates, dullness, confusion, pressure, blues, mania, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases no matter how caused.
